

The School of Mines Quarterly Volume 23

By Columbia University Henry Mines

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: .refining, and the decomposition of fused salts, together with practice in electric furnace work, such as the formation of carbides and silicides, the reduction of aluminium, chromium, and the like. It was found necessary to have more room for this course so the room 420 Havemeyer has been fitted up for Mr. Tucker in order that the work may be carried on to the best advantage. The publications from this laboratory have been by Mr. Tucker and Dr. H. E. Moody and include the following: Improved Electric Furnace for Laboratory Use. Jour. Am. Chem. Soc, Vol. XXIII. No 7, July, 1901. Pp. 473-476. A Comparison of the Solubilities of Acetylene and Ethylene. Jour. Am. Chem Soc: ., Vol. XXIII. No. 9, Sept., 1901. Pp. 671-675. The Production of Some New Metallic Porides. Proc. London Chem Soc, 1901. Vol. XVII. P. 129. Shortly to be published in...

Reviews

This is the finest book i have got study till now. It usually does not price a lot of. I found out this publication from my i and dad encouraged this book to understand.

-- **Jamil Collins**

Absolutely among the best book I have possibly go through. I have go through and that i am certain that i am going to gonna read through once again again in the future. I am just delighted to tell you that this is basically the finest book i have got go through within my personal existence and could be he finest book for ever.
