Pages Number: 346 Publisher: People's Health Publishing House Pub. Date :2008-07. As science and technology In particular the rapid development of life sciences, medicine development by leaps and bounds. Medicine is no longer the traditional sense of the biological sciences, but the integration or cross-biology, science and engineering, environmental, social and cultural, and other subjects, is a comprehensive natural science and social science and humanities disciplines. Medical content and mode of development will determine the content and form of higher medical education development. To reflect the results of modern medicine and the development of higher medical education to adapt to China's reform and development, the Ministry of Education of the general higher education Eleventh Five-Year national planning materials, higher demands, the national study of higher medical teaching materials and the Ministry of Health planning materials proposed amendments to the seventh round of the materials, to follow the five-year clinical professional training objectives, and reflect the new century, the reform of teaching contents and curriculum based on the results, further attention to the overall optimization of a full...

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Ally Reichel**

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*

-- **Prof. Kirk Cruickshank DDS**
