THE HEALTH OF THE NATIONS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Health of the Nations By request of Her Excellency the Countess of Aberdeen, President of the International Council of Women, the affiliated National Councils of Women have prepared reports upon matters concerning Public Health in their respective countries. The Countess of Aberdeen set the lines upon which these reports should be drawn up, desiring special reference to (1) Care of Infant and Children, (2) The Conditions under which Women carry out Industrial Work, (3) Housing of the, People, and (4) Measures in force against the disease of Tuberculosis. In her letters and speeches, the President has unceasingly kept before the National Councils of Women the claims of work for Public Health, and has by her own brilliant example in Ireland provided the strongest stimulus of all in influencing the women in every country to give abundantly of their knowledge, their tact, their experience, and their womanly instincts for the encouragement of this great cause. I have willingly undertaken the editing of the reports, and have translated or condensed them where it seemed desirable. But I trust that any shortcomings will be regarded with leniency, as several of the reports were only received within a week or two of my departure for Canada, to attend the Quinquennial Sessions of the International Council of Women.
