## Pamphlets in Philology and the Humanities Volume 2

By Edwin Mortimer Hopkins

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1897 Excerpt: .complete quadratic equations; solution by factoring; by completing the square; roots of affected quadratic equations; solutions of problems involving quadratic equations; equations of higher degree which may be solved as quadratic equations; quadratic equations involving two unknown quantities; homogeneous quadratics, symmetric quadratics. Advanced algebra. The following is a summary of important points to which the attention of the candidate should be directed: 1 Definitions. Of the terms used in advanced algebra. 2 Radical quantities. Reducing radicals to their simplest form; adding and subtracting radicals; multiplying and dividing radicals; involution and evolution of radicals; general theory of exponents; multiplying and dividing imaginary quantities; the square root of binomial surds; rationalization of radical expressions; solution of equations containing radicals. 3 Quadratic equations. General laws; higher equations which can be solved by completing the square; problems involving quadratics; theory of quadratic equations. 4 Inequalities. Fundamental proposition; an inequality reversed...
